Mathis Electronics is a premier company bringing manufacturing and service excellence to the worldwide Elevator and Electronics printed circuit board arena as well as to the LED light business and consumer worlds! Our goal is for our customers to experience outstanding service along with their corresponding high level of satisfaction.

Reward for using Mathis Electronics Services :

"Customer service is impeccable. RMAs are painless, quick and easy. Email/phone calls are always answered to almost the same day" -L. Allen

"Your lead times are consistent and you hit all the release dates without delay"- M.Chenoweth

"They go above and beyond to meet a certain date. I also know they adapt their product as needed. They don't mind developing new things for us" - J Heffer

"Communication is wonderful. I always receive prompt response to questions and orders are always confirmed" M. Lasky

"Communication on shipments from you is good. Nice to not have to "chase" items, especially in a JIT world now" - R. Milefchik
