

# Advantage

[www.advantageconveyor.com](http://www.advantageconveyor.com)

## Industries Served

- Food – including snacks, meat, seafood and poultry
- Beverage – bottling and canning
- Pharmaceutical
- Cosmetics
- Household & Industrial Products

*Our capabilities allow us to manage your project from start to finish: inception to design to fabrication to assembly to FAT to tear-down to safe transport to installation.*

## Capabilities

Advantage Conveyor's facilities allow us to offer a full range of in-house fabricating and assembly solutions for our clients. Using 12,000 square feet of fabrication & assembly space, coupled with our team of experienced designers & engineers, and an extensive CAD library, Advantage Conveyor is able to deliver a high quality, built-to-last, cost-effective solution with minimal lead times and maximum return on investment.

## Highlights include:

- Everything begins with our 2-D and 3-D based design, engineering and prototyping, with an internal library of 20+ years of solutions.
- Trumpf 2030 C02 CNC laser with the following specs:
  - Table capacity of 60x121" sheet
  - Stainless Steel, from 20 gauge up to 3/8" thick plate
  - Mild Steel, from 20 gauge up to 1/2" thick plate
  - Aluminum, up to 7 gauge (3/16") thick sheet
- Multiple TIG and MIG welding stations, for stainless, mild steel and aluminum
- CNC Plastics Routing
- If it needs to be cut, sheared, drilled, tapped, milled, turned, chamfered, bent or otherwise manipulated to our omnipotent will, then by golly, we've the tools to handle it.
- Finishing capabilities including polishing, sand-blasting, passivation and powder coating.
- Dedicated assembly and testing area – all projects are fully assembled, including servo components and pneumatics, and run off before tear-down and shipment.
- Factory Acceptance Testing is coordinated with our clients to ensure that any changes that come up during the FAT can be completed swiftly to ensure deadlines are met.

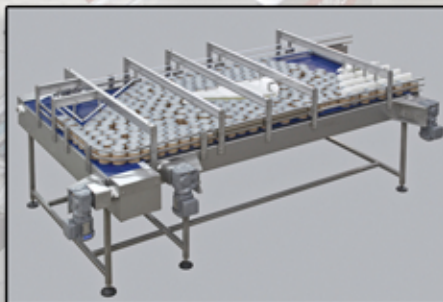

A Few Examples of What We Can Do For You...

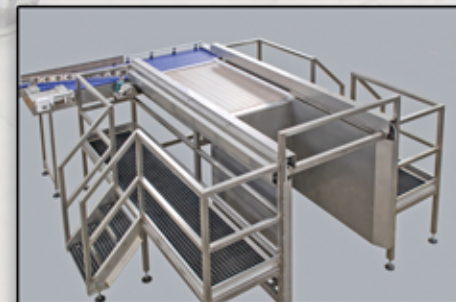

Portable food-grade incline conveyor

Multiple level pack-off station

Single lane infeed to accumulation into four lanes

Depalletizer

Hopper feeding into elevator

Shrimp processing conveyor
