

# THE BWE & PINNACLE DIFFERENCE

- Safety will always be first and foremost
- Top quality products at a competitive price
- Exceptional customer service
- Efficient, large facility with experienced workforce
- BWE Transport for special care & dedicated shipments

*Where Innovation, Quality, And Exceptional Customer Service Come Together*

## FRONT LOAD / REAR LOAD CONTAINERS

*Why are more and more refuse haulers looking to BWE for their Front Load Containers?*

- Innovative designs, high quality steel construction, competitive pricing, and dependable delivery... providing waste haulers the edge they need to grow and be profitable
- Standard and Heavy-Duty Models available in 2 through 10 cubic yards
- Fully welded interior for a 100% leak proof container
- "The BWE Design" is a premium designed front load container that matches or surpasses all standard ANSI specifications found in units offered in the market today, plus additional, innovative features, which can extend the useful life significantly beyond that of an average container. These units are still competitively priced to maximize container value
- For added durability and corrosion resistance, **BWE includes an exclusive "Bakers Guard" Protective Coating.** "Bakers Guard" which is applied to the full interior and exterior understructure, provides extra durability and extended life which saves companies money in refurbishment and bottom replacement costs
- Impact Single Wall Lids are standard and are more durable and lasts longer than any double wall lid available

**"BWE – You Rock!"**

*(Customer comment after a large container order shipment met a challenging deadline)*

### GENERAL PRODUCT SPECIFICATIONS

**Walls** – 12 gauge steel with "V" crimps  
**Floor** – 10 gauge steel  
**Sleeves** – 7 gauge "blunderbuss" with gussets  
**Bumper Plates** – 7 gauge steel  
**Bottom Runners** – 2 x 4 x 10 gauge steel  
**Side Doors** – Lockable 16 gauge steel  
**Integrated, Formed Doors Tracks** (top/bottom)  
**Drain Port** – (1.5") with plug  
**Lids** – single or double wall plastic  
**Interior Protective Coating** – Exclusive "Bakers Guard"  
**Exterior Coating** – 2 mil primer + 2 mil industrial enamel

### HEAVY DUTY UPGRADE SPECIFICATIONS

**Walls** – 10 gauge steel with "V" crimps  
**Floor** – 7 gauge steel

### OPTIONAL FEATURES

Plastic Side Doors (vs. steel)  
 Metal Lids (vs. plastic)  
 Automatic or Manual Lid Locks  
 OCC (Cardboard) Recycle Slot (6" x 57")  
 Standard Mobile Casters  
 "The Glide" Custom Wheel System with Brakes  
 Epoxy Protective Coatings

## ROLL OFF / HOOKLIFT CONTAINERS

*"After receiving a load of hook lift 12yd containers, customer stated, "Bakers cans are the best I have ever used by far. I have bought from a number of container vendors over the years and none compare."*

- Quality steel construction that meet or exceed industry standards
- Innovative, custom designs for specific or hazardous applications
- Standard & Heavy-Duty Designs available in 10 - 80 cu. yd.
- Body Styles include "rectangular" with side rib supports and "bathtub" with heavy-duty sides ideal for company graphics and nesting for more efficient shipping
- Universal Cable Hook, Hooklift, Dempster, and Other Understructures
- Combination Hook / Understructures Available Upon Request
- Heavy-duty 1.5" cable hook integrated into the substructure crossmembers for added durability
- Customized gate and roof designs for specific applications
- For added durability and corrosion resistance, BWE applies its exclusive "Bakers Guard" Protective Coating on the exterior understructure
- High Solid, Industrial Enamel Paint with DV Inhibitors on the exterior

### STANDARD RECTANGLE SPECIFICATIONS

**Sides** – 12 gauge steel  
**Floor** – 3/16" steel  
**Cross Members** – 3" channels 4.1# 16" centers  
**Side Ribs** – 3 x 5 on 38" centers  
**Main Rails** – 2 x 6 x 3/16" tubing  
**Gate** – 12 gauge  
**Latches** – Lever Style  
**Hinges** – 8 x 8 x 1.5 pin w/ grease fitting  
**Cable Hook** – 1.5" thick steel integrated and welded into substructure  
**Nose Rollers** – 4 x 6 with grease fitting  
**Bull Nose** – 1.5" thick steel  
**Ground Wheels** – 8 x 6 with grease fitting  
**Top Rails** – 4 x 3 x 11ga tubing  
**Paint** – 2mil primer interior + 2mil primer and 2mil industrial enamel paint exterior

### STANDARD TUB STYLE SPECIFICATIONS

**Sides** – 10 gauge steel  
**Floor** – 3/16" steel  
**Cross Members** – 3" channels 4.1# 16" centers  
**Main Rails** – 2 x 6 x 3/16" tubing  
**Gate** – 10 gauge  
**Latches** – Lever Style  
**Hinges** – 8 x 8 x 1.5 pin w/ grease fitting  
**Cable Hook** – 1.5" thick steel integrated and welded into substructure  
**Nose Rollers** – 4 x 6 with grease fitting  
**Bull Nose** – 1.5" thick steel  
**Ground Wheels** – 8 x 6 with grease fitting  
**Top Rails** – 4 x 3 x 11ga tubing  
**Paint** – 2mil primer interior + 2mil primer and 2mil industrial enamel paint exterior

STATIONARY COMPACTORS

- The Pinnacle Line of Stationary Compactors offers exceptional structural integrity for many years of dependable service.
- All compactors are designed to provide reliable performance in solid waste and recycling applications.
- Engineered, custom load options and container lifts are built turnkey by Pinnacle.
- Optional features such as Oil Heaters, Odor Control, Auto Cycles, Multi Cycles, Remote Controls, Trash Monitoring Systems, Pin Offs, Phase Converters, and more are available!
- Sales, Service, Manufacturing, Technical Support, Delivery, Installation, and Parts... Pinnacle is your one stop shop for all your compactor needs.

## HEAVY-DUTY INDUSTRIAL EQUIPMENT

- Special Equipment for metal working and metal recycling applications
- Heavy Duty Roll Off Containers up to 80 yds in capacity
- Roll Offs with sealed gates, drain options, and roll over steel roofs for special requirements
- Self Dumping Hoppers in 3 classes ranging from 1/2yd to 5yd capacity
- Rugged Luger Boxes for those extra tough hauling applications
- Metal Scrap Trailer Bodies . . . BWE turns that old frame into a like-new trailer!
- Concrete Washout Containers, Bulk Storage Containers, and more
- Exclusive "Bakers Guard" Protective Coatings on the understructure and interiors for superior durability and extended life
- High-Solvent, Industrial Enamel Paint with UV Inhibitors on the exterior

*"The new containers arrived today and we are very pleased with them. The new lid design is so user friendly we can open them with one finger. Thanks to all at BWE for solving this ergonomic issue in such a timely and professional manner. Safety is an extremely important value for our company."*

## RECYCLE CONTAINERS

A wide variety of containers designed for the recycle streams developing everyday.

- Roll Off Recycle Containers to collect paper, cardboard, glass, plastic, and more
- Front Load (OCC) Containers for daily collection of cardboard
- Grease Recovery Containers for reclamation of grease for bio fuel
- Organic Food Waste Containers to supply the ever growing "green" compost industry
- Used Clothing Recycling Containers to supply the world network in the redistribution of clothes to countries in need
- Dewatering Sludge Containers for grease and septic waste
- Innovative designs to accommodate many of the recycling trends that are changing the waste stream as we know it
- Exclusive "Bakers Guard" Protective Coatings on the understructure and interiors for superior durability and extended life
- High-Solvent, Industrial Enamel Paint with UV Inhibitors on the exterior

*"We took delivery of the first load of containers from BWE yesterday, and the cans looked great and well made. Your driver even touched up any scratches from the haul as they were unloaded. I am very impressed with your operation."*

# BAKERS WASTE EQUIPMENT, THEN AND NOW...

Bakers Waste Equipment Inc. (BWE) was founded in 1981 with a vision to manufacture and provide waste handling equipment to a regional network of haulers and municipalities.

After decades of success and positive growth, BWE decided to relocate in 2015, and invest in the future of the company.

Ric Raines (President) states, "A considerable amount of effort went into selecting the proper site for BWE's new headquarters and manufacturing plant. An exhaustive search was made to find a facility large enough to house BWE's three existing plants, plus allow for future growth. That search resulted in finding and relocating to a vacant Broyhill Furniture plant in Caldwell County N.C., that had excessive capacity to accommodate all of BWE's current and future needs."

"Our company required more capacity with a desire to have all of our operations and offices under one roof," says Chris Burns (Director of Sales & Marketing). "Our new Lenoir NC location will house our corporate offices, all manufacturing divisions, service departments and BWE Transport. BWE is very excited about this new chapter and is thankful for the opportunity to grow and become an even larger presence in the waste and recycling industries."

A new location did not mean a change in BWE's company philosophy. The company remains committed to its core values of:

- Safety First & Foremost
- Top Quality Products at a Competitive Price
- Exceptional Customer Service & Support After the Sale
- Efficient & Cost Effective Productivity

BWE's growth since 1981 would not have been possible without its loyal customers, vendors and associates. A special thank you goes out to all valuable customers, dependable vendors and our loyal employees who have made BWE into the company it is today.
