# GLOBAL

*Advantage*™ Program

This program is designed to improve your overseas manufacturing experience and provide you peace of mind by combining the convenience of working with a domestic manufacturer and the costs savings of high-volume, high-speed overseas production facility. We provide you complete project management services without the typical markup associated with a broker.

For nearly two decades we have shared ownership and a trusted relationship with our overseas partners, which allows us to provide true costs savings to you while eliminating many of the hurdles often encountered when working with an overseas production partner. Our overseas partner exemplifies the **GLOBAL Culture** of integrity, respect, quality, innovation, value, excellent customer service, and continuous improvement.

## Program benefits

- Peace of mind as a result of our long term trusted relationship with our overseas partner
- **Ease of Communication**
- **Costs savings**
- **Intellectual property protection**
- Supply chain management
- Logistics management
- Domestic responsibility for your product components
- Domestic Financial Transactions
- And many other immeasurable advantages
