

OUR PROCESS

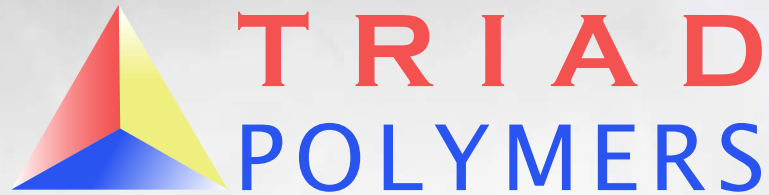

At Triad Polymers, we work with clients to create custom products tailored to their needs. Some examples of services we provide are:

Performance Masterbatches
Custom Compounding
Research and Development for New Products
Compounding Services for Branded Labels

Our capabilities include, but are not limited to:
Compounding, Pulverizing, Thermal and Chemical Analysis, and Recycling.

We process Thermoplastics in temperature ranges from Polyolefins to PEEK.

We have **no minimum lot size** and are **ISO 9001 Certified.**

OUR EQUIPMENT

We are equipped with state of the art extruders and a full analytical laboratory facility.

High Speed Twin Screw Extruders
Loss in Weight Gravimetric Feeders
State of the Art Drying Technology
Thermogravimetric Analysis (TGA)
Differential Scanning Calorimetry (DSC)
Fourier Transform Infrared Spectroscopy (FT-IR)

OUR PRODUCTS

Triuvant® UV Stabilizers

Non-Halogenated Flame Retardants

Antioxidant Packages

Slip/Anti-Block Agents

Optical Brighteners

Anti-Static Formulations

Anti Fungal and Anti-Microbial Formulations

COMPOUNDING CAPABILITIES

Polyesters (PET, PBT)

Nylons (PA6, PA6,6)

Polyolefins (PE, PP)

Thermoplastic Elastomers (TPE's)

Recycled Resins

Biopolymers

APPLICATIONS

Automotive Fabrics

Technical Textiles

Performance Apparel

Office Furniture

Non-Woven Fabrics

Geotextiles

Fine Denier Multifilament Yarns

Extruded Film

Packaging and Labels

Injection Molding
